

The tongan event

Last Friday, there was a special event. It was when the whole school came together to see the performers. They even had their first fashion show. After the fashion show, the performers sang and danced. Later on, we had a big tongan feast. But before we had our food we lined up in a really long line. Then we ate. I got chicken and some chopsiue. In the end it was play time. I played with my friend then I felt like one more plate of food.

I liked the food because it was really juicy and yum!
